**Subject:** Union Gas - Stratford Reinforcement Project

Good morning Mr. McCabe,

Further to my voicemail this morning, I wanted to send along these slides to keep you apprised of our upcoming Stratford Reinforcement project.

This transmission project is proposed to be filed with the Ontario Energy board in fall of 2018 for a 2019 construction; it will allow Union Gas to continue to deliver natural gas supply to municipalities and counties to the north of London and Stratford including Goderich and Huron County.

One thing Union Gas has asked in the past is for a letter of support from our partner municipalities which have residents and growing populations that benefit from these transmission works. Would Goderich be willing to provide such a letter?

Let me know when you might have a few minutes to discuss the project.

Thanks,

[Taylor Jones, P.Eng.](#)

# 2019 Stratford Reinforcement Project

Supporting growth in Southern Ontario

# Stratford Reinforcement Project

## What is driving this project?

- Addressing the future supply needs of Union Gas' **Forest-Hensall-Goderich System**, which serves the northern portions of the counties of Lambton and Middlesex and the counties of Perth and Huron.
- Ensuring the continued reliable delivery of natural gas in this area to existing customers.

## Stratford Reinforcement Project

### How will this project benefit Municipalities?

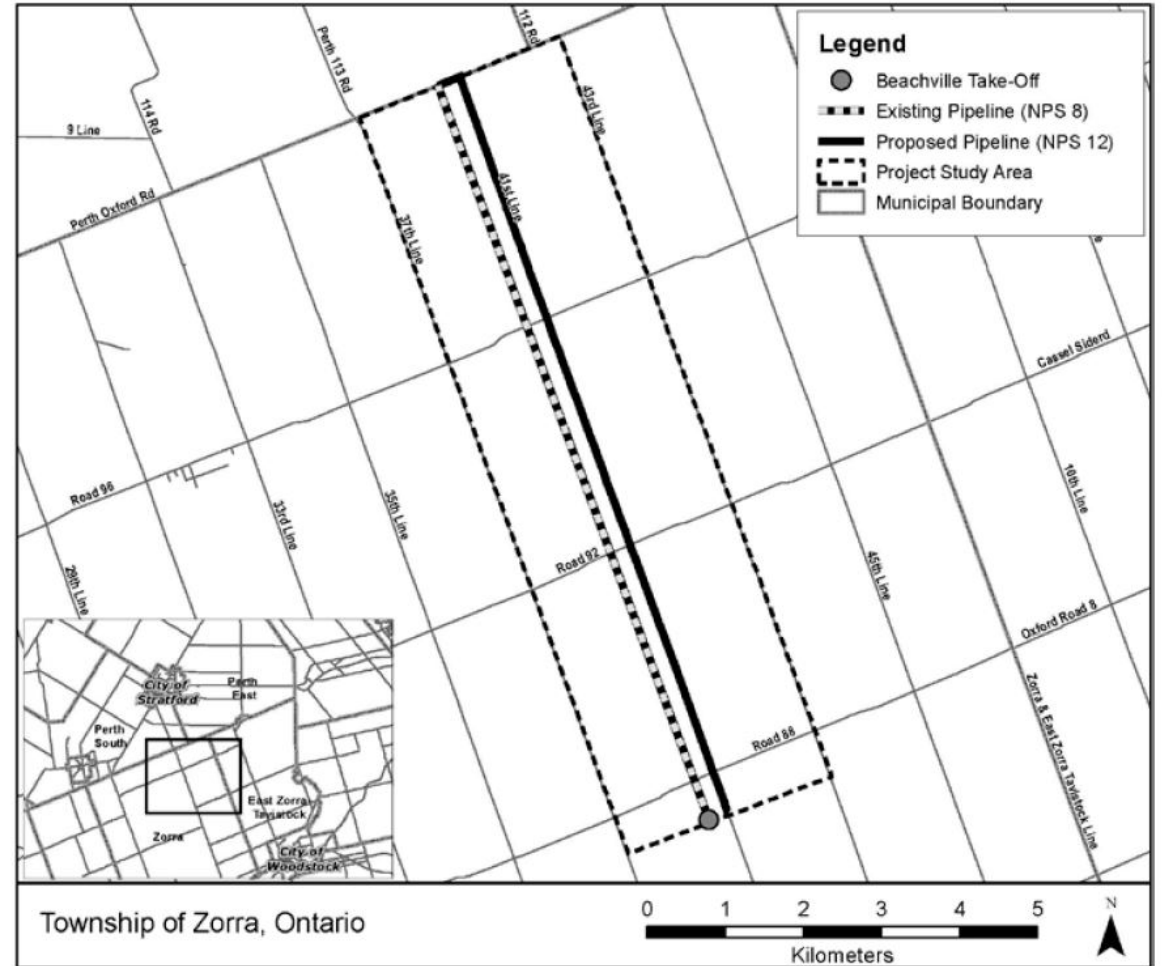

- This project is an economic driver that will meet both existing and future demand for natural gas in Huron, Lambton, Perth, and Middlesex Counties
- It creates sufficient natural gas capacity for up to the equivalent of 13,500 new homes or ~9,600 new Union Gas customers

# Stratford Reinforcement Project

## What are the project timelines and details?

- The Project will involve the construction of a new 11 km 12-inch diameter steel natural gas pipeline located within the public road right-of-way of 41st Line from south of Oxford Road 88 to Perth-Oxford Road within the Township of Zorra.
- Construction of the Project is planned to begin in the spring of 2019 and be complete by the Fall of 2019.
- The preliminary cost of the project is estimated at \$21MM.

# Stratford Reinforcement Project

## Your voice can make a difference

- We are requesting a letter or resolution of support for this project from your Municipality.
- The Ontario Energy Board application process will review the “need” and community support for the proposed infrastructure.
- A letter of comment or resolution in support will help demonstrate support and need.

Good afternoon,

It was great talking with you Janice. As discussed on our phone call, please find attached an example template letter of support for the Stratford project as well as an example from a past project.

Please let me know if there is any additional information needed from me prior to your council meeting.

Thanks,

RE: Union Gas Stratford Reinforcement Project

Dear Mr. Jelich:

On behalf of (Municipality), I am writing to indicate our support for the  
aforementioned Union Gas Stratford Reinforcement Project.

Describe Municipality represented, such as members represented, area served

In order for future growth in (Municipality) to be realized, sufficient natural gas  
infrastructure will be required. Expansion of service will be necessary in order to  
support future economic development in the region.

With this in mind, (Municipality) is strongly in support of this project and look  
forward to an ongoing positive relationship with Union Gas.

Sincerely,

Name  
Position  
Organization

Attn: Sean Collier - District Manager, Windsor/Chatham

Dear Mr. Collier,

**Re: Support for the Kingsville Transmission Reinforcement Project**

The Municipality of Leamington is writing to indicate support of the proposed Union Gas Kingsville Transmission Reinforcement Project.

The Municipality of Leamington is an agricultural community with a substantial greenhouse sector, which contributes significantly to employment in the area. This sector has expanded dramatically in the last five years and growth is expected to continue as the industry works to respond to market demands. Sufficient natural gas infrastructure will be essential for this growth to be recognized. Union Gas' transmission pipeline system in Southwestern Ontario supplies reliable natural gas to residential, commercial, industrial, power generation, and agricultural customers and the demand for natural gas created by expansion will place a strain on the current system serving the area.

The Kingsville Transmission Reinforcement Project will: retain and attract industry within Southwestern Ontario with reliable, affordable energy; provide benefits to the area as well as Ontario through enhanced economic development opportunities; efficiently create strategic infrastructure that lays a foundation for future growth; and, provide incremental firm capacity to the area to meet current and future forecasted growth. For these reasons, the Municipality of Leamington is in support of the project and looks forward to an ongoing positive relationship with Union Gas.

We look forward to the completion of this very important project.

Yours truly,

Peter Neufeld  
Chief Administrative Officer

John Paterson  
Mayor
