Goderich is creating a **Community Safety and Well-Being Plan**. The Plan will set out how we work with the community and other agencies to improve the safety, health and well-being of the residents of Goderich.

Community Safety and Well-Being issues such as education, health, housing, mental health, and addiction know no municipal borders, and it is important for us to work with others to address these issues, as well as any which may be specific to Goderich. This is why Goderich has partnered with the other lower-tier municipalities in Huron County to create and implement a collaborative, all-encompassing Plan.

The Town’s goal, in collaboration with community partners and residents, is to identify and prioritize current issues, enhance our collective ability to respond to issues and build on the many successful efforts that contribute to a strong sense of safety and well-being in our community.

Residents and business owners in Huron County are invited to complete the following survey:

https://www.surveymonkey.com/r/HuronCountyCSWBSurvey

The survey results will form an important basis for our Plan. We encourage you to complete the survey and forward it to others in Huron County.

If you have any questions with respect to the Plan or the survey (which is completely anonymous), please do not hesitate to contact me.
